History of Microsoft Project

History of Microsoft Project

History of Microsoft Project

Project

winproj.exe

Legacy app

Too hard for MS to re-write
to fit into the common data
service

P4W & Roadmap

Browser only

New app

Uses all the new MS
infrastructure

Modern functionality

Microsoft Licensing is both
complex and fluid.

Project for the web features

Features listed in this section interact only with data in the Project for the web data store. All these features are available in all Microsoft Project subscriptions: Project Plan 1, Project Plan 3, and Project Plan 5.

Feature	Description	Office 365 licenses	Plan 1	Plan 3	Plan 5
Project, task, and time management					
Board view	Track project tasks visually for improved workflow and status monitoring by using out-of-the-box and custom task boards.	View only	Yes	Yes	Yes
Dependencies	Set and visually track dependencies between tasks.	View only	Yes	Yes	Yes
Grid view	Plan and manage projects by using a hierarchical grid view of tasks.	View only	Yes	Yes	Yes
Milestones	Establish and track important project and task milestones.	View only	Yes	Yes	Yes
Project Home	Track and manage deliverables using start and end dates and automated scheduling.	Yes	Yes	Yes	Yes
Task scheduling	Get a birds-eye view of projects that you've worked on recently, as well as important projects that you need to monitor closely.	View only	Yes	Yes	Yes
Timeline view	Visually track and understand project dates, dependencies, and assignments in a	View	Yes	Yes	Yes

So today, which license do I need?

Office 365 subscription

View P4W plans & Roadmaps

Plan 1

Create P4W plans

View Roadmaps

Plan 3

Equivalent to the old Project Professional license (Project Online, winproj.exe)

Plan 5

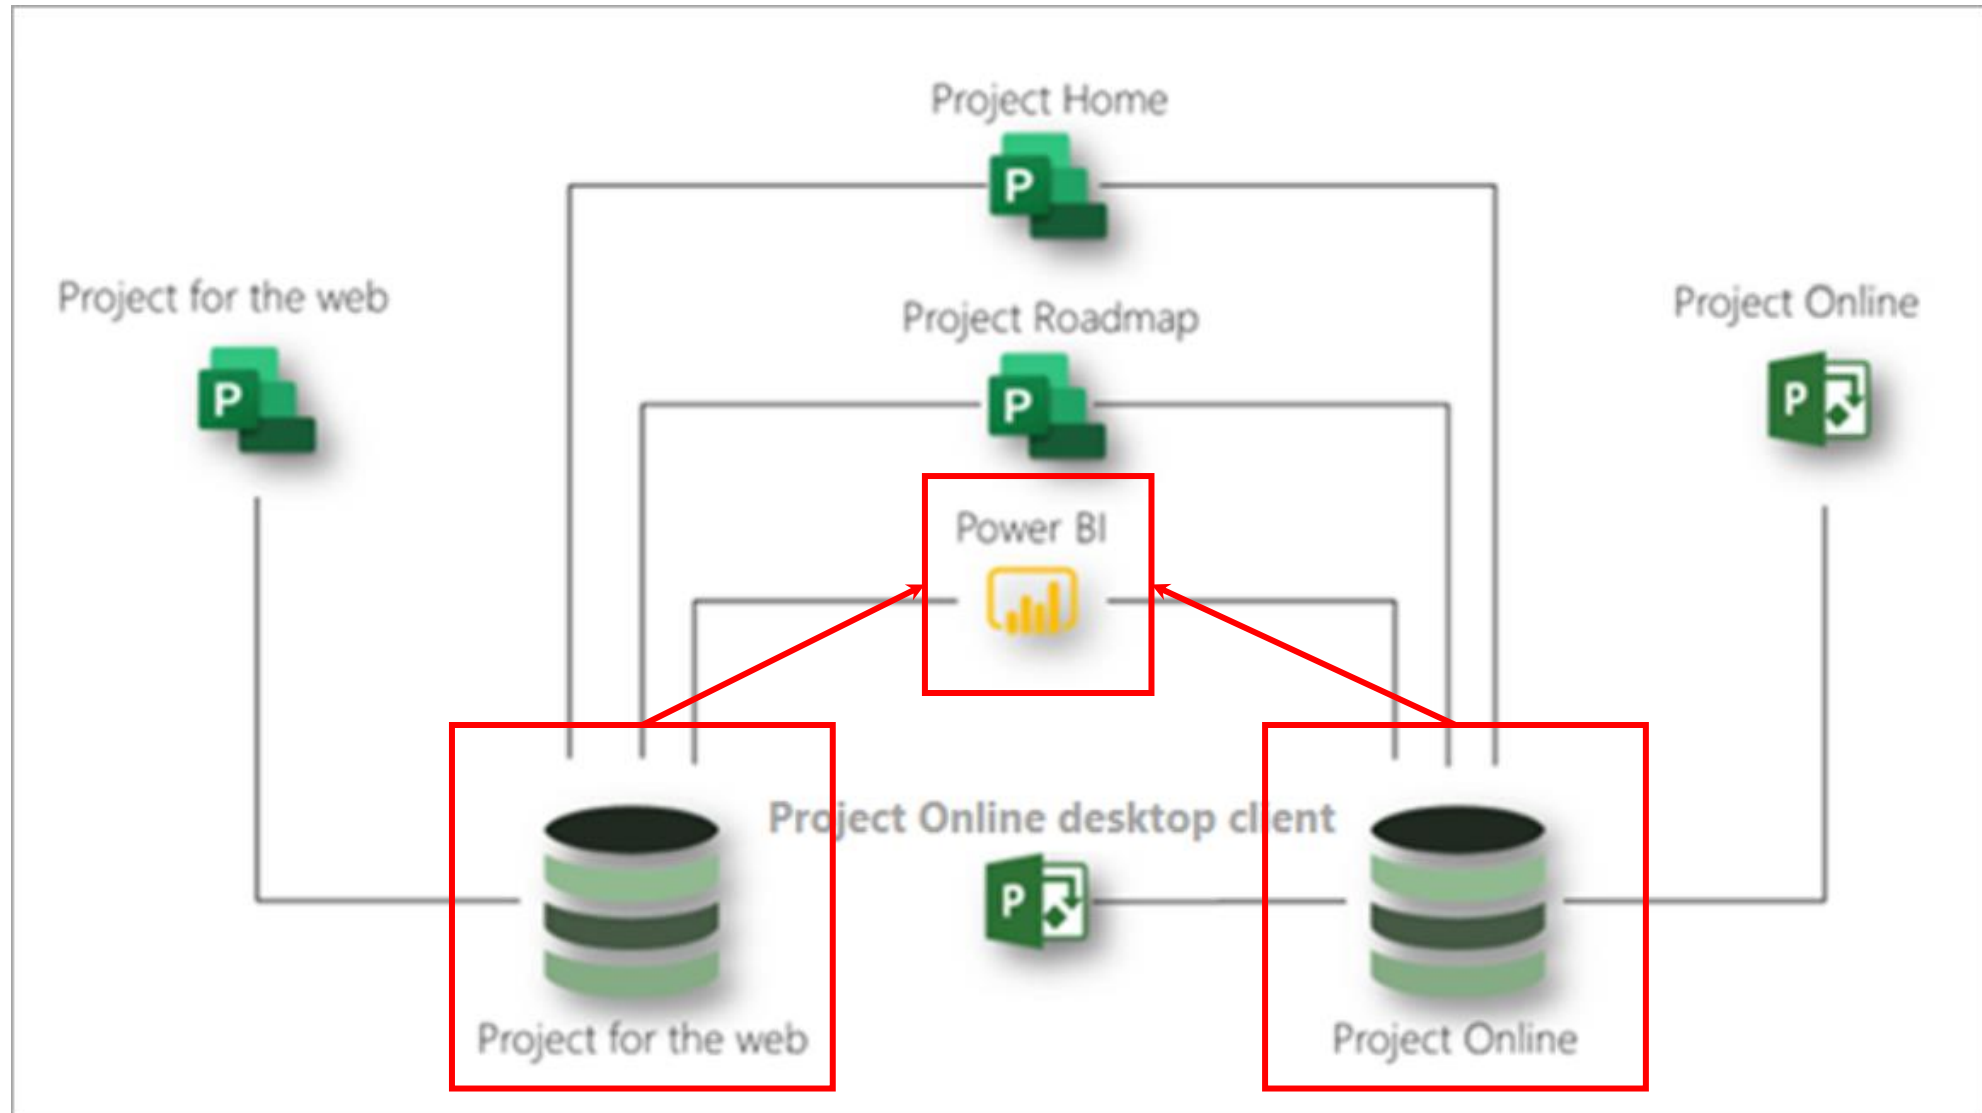

Equivalent to the old Project Premium license (Project Online, winproj.exe)
